The summer of 2017 promises to be full of **CURIOUS** opportunities.

Curious-on-Hudson in Dobbs Ferry! Another summer of awesome programs.

Right here at our Dobbs Ferry home we offer over 30 interesting weekly camps that allow your son or daughter to take a deep dive into specific areas of interest. You can study **Roman Architecture through Minecraft** or take a week of **Digital Storytelling with Animation** and lots more really awesome stuff. See the complete list of awesome camps on back. *Please note: For grades K-2, we've brought our programming over to Camp Hudson Cubed from June 26 through August 11. This allows us to offer a greater variety of camps for older children in 3-5 and middle school. Additional classes for grades K-2 happen after August 11 at COH.*

Find us at Camp Twelve Trails! - a full day camp program in Rockland County.

Are you looking for a full-day camp with a science enrichment program built in? We'll be at **Camp Twelve Trails** in Rockland County all summer long, running their DISCOVER neighborhood where your young one can explore science, tech, engineering and "making" in a daily enrichment program. In addition to the on-site STEAM program, we've got two great trips planned as well as a whole array of NASA based education for SPACE WEEK. With transportation from NYC and Westchester, Camp Twelve Trails offers an all-around **great** camp experience.

Tinkerers at Camp Louemma – an overnight camp experience with **TINKERING** built in.

In this **Tinkerers** program, we get to play with the big toys (and make some of our own). We designed this program in the spirit of **the Tinkering School SFO** and we want this summer to be the one where your child learns the power of these words: "*I built it.*" Tinkering is where we guide the kids through the design process, collaborate on ideas, and come up with one big weekly project that we work on all together. As an added plus, your child gets to enjoy a full overnight camp experience with all the goodies in this well established camp setting. It's the best of both worlds in a wonderful setting only 90 minutes from Manhattan. June 26-August 11.

CAMP HUDSON³

Camp Hudson Cubed – a full day camp in Hastings

We are so proud to partner with the Hudson Lab School to bring **CAMP HUDSON CUBED** to life! This **woods-to-wired day camp** offers parents the option of our programming in a full day camp program located on the beautiful and spacious grounds of Andrus on Hudson in Hastings, NY. If you love the idea of tinkering, outdoor exploration, project-based learning, and a totally engaging summer experience for your child to flourish in, than check out Camp Hudson Cubed for your child in grades K-
